## Confident-Modern-Classic-Playful-Feminine

The Iconic Reinvented Woman of today is confident in who she is, stays current with fashion, but doesn't chase after items that go out of style quickly. She appreciates modern, clean lines but also femininity done in a pretty, non-frilly way.

She is 25-35, has a career, has bought, or is seeking to buy, her first home. She makes time for family and friends and has an active social life. She enjoys travel and treats herself to the small luxuries in life, from the never-will-find-it-again vintage Chanel clutch, to the decorating with fresh flowers--no special occasion needed!

Her wardrobe needs to reflect her love of understated beauty, and function for both work and evenings out, whether it is running errands or dinner with friends. Polish, comfort, and versatility combined with easy elegance are her style requirements.

Her footwear choices must reflect these style guidelines.

# Armor & Amore The Modern Heroine

Armor & Amore  
Romance & Resistance

The Modern Heroine  
The bravery and beauty of Joan of Arc  
Chainmaille as Adornment  
Piecing, Blocking mixed with Shine  
Neutrals with hits of feminine color

Joan of Arc epitomizes the combination of femininity and fierce display of independence. Armor inspires piecing and blocking in bodice form which creates interest and a play of textures. Articulated embellishments in body conscious, curving layouts emphasize protection, but also form. Neutral palette is offset by an abundance of shine and rich heritage hues.

## Confident-Independent-Feminine

Today's Modern Heroine is just that. She is fiercely independent, but doesn't relinquish her feminine side.

Who doesn't know a woman who does it all, seemingly defying the limits of human capacity? Today's woman has a demanding career, balances motherhood and is generally making a heroic effort every single day. She appreciates a wardrobe that can move with her through her days and nights, expressing her strength as well as her softness. Modern, clean lines keeps it chic, and adornment done in an under-stated but pretty way, adds the uniqueness that is all hers.

She is 25-40, has a career, and a family. She makes time for friends and has an active social life. She enjoys socializing and entertaining, and plans to purchase items in her wardrobe intended for social gatherings and evenings out.

Wardrobe pieces have to work as hard as she does. Easy to outfit, easy to mix and match, always elegant.
